INTRODUCTION

1. Background. This report is the second volume of a two-volume report and provides listings of authorized Line Item Numbers (LINs) and substitutes used for these items. These listings were taken from a complete file of substitute items which was obtained from the US Army Depot Systems Command (DESCOM) as a magnetic tape (DESCOM RIN KO1PBY4134R). Appendix A segregates the totality of substitute items by the Major Readiness Command (MRC) that is either the primary or secondary manager of the item. Appendix B lists all substitutes in ascending authorized LIN order.

2. Purpose.

2.1 It is proposed that Headquarters, US Army Materiel Development and Readiness Command (DARCOM), distribute to DA the complete appendix and to each MRC that section of the listing in Appendix A that pertains to it with a request that knowledgeable personnel screen the listing and indicate on the listing itself which substitute items are good substitutes, equal to or better than the authorized item (Substitute Type 1 (ST1)), which are not as good or complete as the authorized item in characteristics (Substitute Type 2 (ST2)), and which indicated substitutes should not be used as substitutes. When the annotated listings are returned to HQ DARCOM, DECOM can be tasked with adding those LINs annotated to be ST1 or ST2 to the listing of authorized LINs.

2.2 The listing in Appendix B is provided as an index to existing substitutes.

APPENDIX A

AUTHORIZED LINE ITEM NUMBERS AND SUBSTITUTES
USED FOR THEM BY MANAGER CODE

APPENDIX A

AUTHORIZED LINE ITEM NUMBERS AND SUBSTITUTES USED FOR THEM BY MANAGER CODE

1. Authorized Line Item Numbers (LINs) and substitutes used for them are listed by manager code. For each manager code, the headings are defined as follows:

ALIN	The LIN of the authorized item.
INST	The number of times (or number of units) that the occurrence of a specific OLIN-ALIN match was found.
MGR	The manager code. First character indicates the primary manager, the second character indicates the secondary manager for the OLIN.
NOMENCLATURE	The short nomenclature for the OLIN.
NSN	The National Stock Number for the OLIN.
OLIN	The LIN of the item that is on hand as a substitute for the ALIN.
QTY	The number of items that are used as OLINs for the ALIN.

2. The manager codes are listed below:

Commodity Manager <u>Alpha Code</u>	RIC Item Manager <u>Code</u>	<u>Commodity Command/Materiel Category</u>
B	B17	US Army Troop Support and Aviation Materiel Readiness Command (TSARCOM). Other support equipment, ground forces support materiel.

APPENDIX B

LISTING SHOWING ALL EXISTING SUBSTITUTES IN AUTHORIZED LINE ITEM NUMBER ORDER

The following listing is similar to that in Appendix A in headings and content. This listing, however, is in Authorized Line Item Number (ALIN) sequence and is not broken out by manager code though the manager code is listed by each On-Hand Line Item Number (OLIN).
